- Improve the quality of their Decisions in business and life
- Consider new perspectives in the way they run their business and life
- Reduce their isolation of being at the Top
- Create change that benefits their business and life

How we do it?

Our members commit through their membership for one year to participate in a group of CEO from different Companies. We work with small groups never exceeding 8 participants. The rule is that each participant comes from a non-competitive field. They meet with business peers to experience how a peer group can help them overcome challenges and seize new opportunities. Members of our Advisory boards are proven business leaders and critical thinkers. They have smart ideas and insightful opinions and this is the forum to express them.
